NATIONAL FOUNDATION ON THE ARTS AND THE HUMANITIES

President's Committee on the Arts and the Humanities; Notice of Meeting

The 31st meeting of the President's Committee on the Arts and the Humanities will take place on Wednesday, January 25, 1995 at the Nancy Hanks Center, 1100 Pennsylvania Avenue, in Washington, D.C. The plenary meeting will be convened at 2 p.m. in room M-09. This meeting will feature a discussion of the private sector's ability to supplement existing government funding for the arts and the humanities. Committee members and guest speakers will discuss the current state of philanthropy and recent reports on declining or stagnant rates of corporate support for the arts. If time permits, the Committee may hear a discussion of current issues affecting institutions in the humanities. Working groups, to discuss specific topics to be addressed by the Committee during 1995, will meet in the morning beginning at 9 a.m. in locations to be determined. At present no guest speakers are confirmed and the agenda for the plenary session is subject to revision. For information about the agenda, please contact the President's Committee staff at the address or phone number below.

The President's Committee on the Arts and the Humanities was created by Executive Order in 1982 to advise the President, the two Endowments, and the IMS on measures to encourage private sector support for the nation's cultural

institutions and to promote public understanding of the arts and the humanities.

Public attendance is encouraged, but seating is limited in meeting rooms and it is suggested that individuals wishing to attend notify the staff of the President's Committee in advance. For further information, please call the President's Committee at (202) 682-5409 or write to the Committee at 1100 Pennsylvania Avenue, N.W., Suite 526; Washington, D.C. 20506.

Dated: January 6, 1995.

Yvonne M. Sabine,

Director, Council and Panel Operations,
National Endowment for the Arts.

NUCLEAR REGULATORY COMMISSION

Call for Nominations For Advisory Committee on Nuclear Waste; Notice

AGENCY: U.S. Nuclear Regulatory Commission.

ACTION: Call for nominations.

SUMMARY: The U.S. Nuclear Regulatory Commission (NRC) requests nominations of qualified candidates to consider for appointment to its Advisory Committee on Nuclear Waste (ACNW). Currently, there are two openings expected on the Committee in mid-1995.

ADDRESSES: Submit nominations to: Ms. Jude Himmelberg, Office of Personnel, U.S. Nuclear Regulatory Commission, Washington, DC 20555.

FOR FURTHER INFORMATION CONTACT: Ms. Jude Himmelberg at (301) 415-7119.

SUPPLEMENTARY INFORMATION: The ACNW is a part-time advisory group established by the NRC in 1988 to provide independent technical review of and advice on the disposal of nuclear waste, including all aspects of nuclear waste disposal facilities within the purview of NRC. This includes activities related to both high- and low-level radioactive waste disposal facilities including the licensing, operation, and closure of the facilities; and associated rulemakings, regulatory guides, and technical positions developed to clarify the intent of NRC's high- and low-level waste regulations. The ACNW will also review performance assessment evaluations of waste disposal facilities. In performing its work, the Committee reviews and reports on issues related to high- and low-level waste regulations and areas of concern referred to it by the Commission or its designated

representatives, and undertakes other studies and activities related to those issues as directed by the Commission. The Committee interacts with representatives of the Advisory Committee on Reactor Safeguards, the Department of Energy, NRC, other Federal, State, and local agencies, Indian Nations, private organizations, etc., as appropriate to fulfill its responsibilities.

A wide variety of engineering and scientific skills are needed to conduct the broadly based review processes required in the Committee's work. Engineers and scientists with work experience in the high- and low-level radioactive waste disposal programs coupled with broad experience in a pertinent technical field such as nuclear chemistry, nuclear science and technology, risk assessment, and systems engineering are highly sought.

Individuals should have a minimum of 20 years' work experience in related fields or fields that can be applied directly to the work of the Committee. In addition, individuals must be able to devote approximately 50–100 days per year to Committee business. Most meetings are held in Rockville, Maryland, although some additional travel is required to various sites outside the Rockville area.

Because of potential conflict of interest, individuals currently involved in areas related to nuclear waste disposal might be of limited use to the Committee. The degree and nature of any such involvement will be carefully considered. Each qualified nominee's financial interests must be reconciled with applicable Federal and NRC rules and regulations prior to final appointment to the Committee. This may result in the candidate being required to divest himself or herself of securities issued by nuclear industry entities, discontinue research projects, and/or limit involvement in certain types of contracts, based on a determination of conflict of interest.

Copies of a résumé describing the educational and professional backgrounds of the nominee, including any special accomplishments, professional references, current address, and telephone number should be provided. All qualified nominees will receive full consideration. Appointment will be made without regard to such factors as race, color, religion, national origin, sex, age, or handicapped condition. Nominees must be granted security clearances based on a full background investigation and be citizens of the United States. Applications will be accepted until March 15, 1995.

Dated: January 6, 1995.

Andrew L. Bates,

Advisory Committee Management Officer.
